PROMOTIONAL

A personalised towel is a nice corporate or promotional gift or a great way to strengthen your image. At Clarysse, you have the possibility to embroider, weave-in or print your logo, slogan or company name. Together with you, we make the best possible version of your design.

Een gepersonaliseerde handdoek is een erg leuk cadeau voor jouw personeel of relaties, of simpelweg om jouw imago te versterken. Bij Clarysse heb je de keuze om jouw logo, slogan of bedrijfsnaam te laten borduren, inweven of bedrukken. Samen met jou bekijken we hoe het ontwerp het best tot zijn recht komt.

Ein personalisiertes Handtuch ist ein schönes Firmen- oder Werbegeschenk und eine gute Möglichkeit Ihr Image zu stärken. Clarysse bietet die Möglichkeit, Ihr Logo, Ihren Slogan oder den Firmennamen einzusticken, zu weben oder zu drucken. Zusammen mit Ihnen erstellen wir die bestmögliche Version Ihrer Idee.

Vous souhaitez offrir un très beau cadeau aux membres de votre personnel ou vos clients, ou simplement renforcer votre image de marque ? La serviette personnalisée est l'article qu'il vous faut. Chez Clarysse, vous avez le choix : mettre votre logo, votre slogan ou le nom de votre société brodé, tissé ou imprimé. Ces éléments peuvent être ajoutés sur une serviette existante.

EMBROIDERY

Your logo, company name and/or baseline is subsequently sewn onto a bath towel. This option is very refined and stylish, and can be both discrete or prominent. The possibilities with embroidery are endless.

PRINTING

Especially colourful designs benefit from the possibilities of printing. Looking for an all-over digital print on a velvet bath towel? Or maybe you just want a simple personalised border? Printing gives you many options.

INWEAVING

The word immediately implies what it does: we weave your logo into our fabric during the production process.

CLARYSSE TOUR

Since our establishment in 1953, we've grown to be a European leader in producing and distributing bath and kitchen textiles. What's very important is that everything at Clarysse happens under the same roof: from design to finished product, everything is managed and observed on our premises in Pittem, Belgium.

For many people, bath and kitchen fabrics are a common product. For us, however, it is the result of a process that we repeat with passion for every new item. When creating towels, we always keep your satisfaction in mind. Will you join us on a tour behind the scenes?

Sinds onze start in 1953 zijn we uitgegroeid tot de toonaangevende Europese marktleider in de productie en distributie van bad- en keukentextiel. Eén van onze belangrijkste troeven is dat alles bij Clarysse onder één dak gebeurt: van design tot afgewerkt product, alles wordt op ons terrein in Pittem beheerd en opgevolgd.

Voor velen zijn bad- en keukenstoffen een alledaags artikel. Voor ons is het echter het resultaat van een proces dat we met veel passie doorlopen, telkens met jouw tevredenheid in het achterhoofd. Neem je mee een kijkje achter de schermen?

Seit unserer Gründung im Jahr 1953 haben wir uns zu einem europäischen Marktführer in der Herstellung und im Vertrieb von Bad- und Küchentextilien entwickelt. Es wichtig zu wissen, dass bei Clarysse alles unter einem Dach stattfindet. Vom Design bis zum fertigen Produkt wird alles in unserem Stammwerk in Pittem, Belgien, hergestellt und administriert.

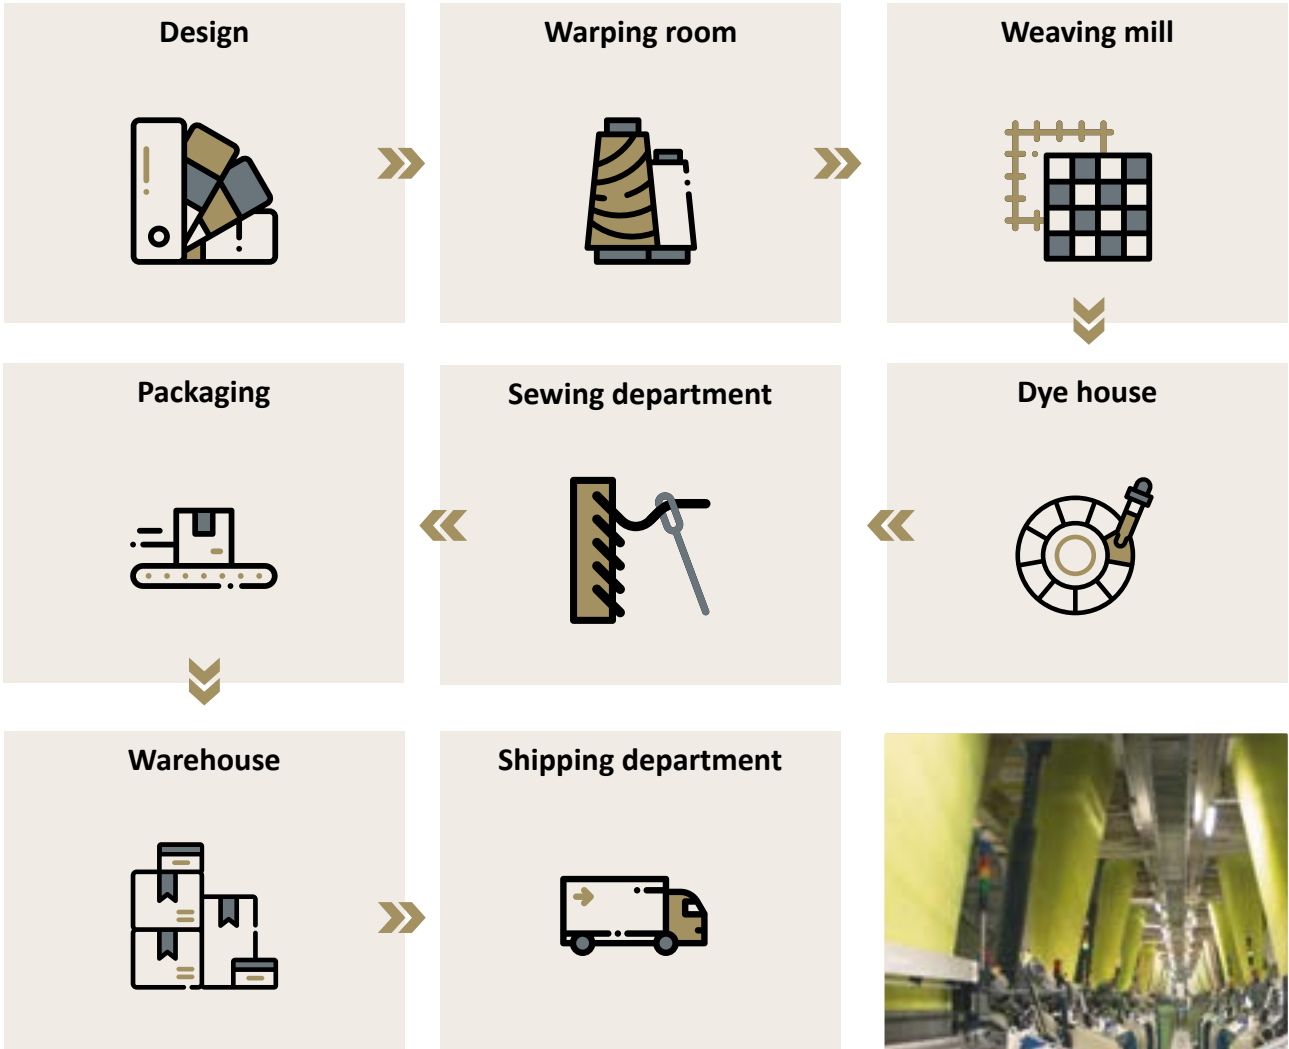

Für viele Menschen sind Bad- und Küchentextilien nur ein einfaches Produkt. Für uns ist es jedoch das Ergebnis eines Prozesses, den wir mit Leidenschaft für jeden neuen Artikel wiederholen. Bei der Herstellung von Frottiertüchern haben wir immer Ihre Zufriedenheit im Fokus. Wollen Sie mit uns auf eine Tour hinter die Kulissen gehen?

Depuis notre création en 1953, nous sommes devenus le leader du marché européen en matière de production et de distribution d'articles textiles de salle de bain et de cuisine. L'un de nos atouts les plus importants est que tout est fait sous un même toit chez Clarysse : de la conception au produit fini, tout est réalisé sur notre site à Pittem en Belgique.

Pour beaucoup de gens, les articles de bain et de cuisine font partie du quotidien ; pour nous, c'est aussi le résultat d'un processus que nous vivons avec beaucoup de passion et chaque fois avec le souci de satisfaire nos clients. Jetez donc un coup d'œil en coulisses ?

CERTIFICATES

Products bearing the fair-trade label are grown, produced, and sold under a system that guarantees that farmers and agricultural workers are paid fairly for their work.

The aim of the OEKO-TEX Standard 100 is to level out global differences regarding the assessment of possible harmful substances in textiles.

The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

The Organic Content Standard (OCS) applies to any non-food product containing 5-100 percent organic material. It verifies the presence and amount of organic material in a final product. Further OCS tracks the flow of a raw material from its source to the final product.

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Cotton made in Africa is an initiative of the Aid by Trade Foundation (AbTF) that helps African smallholder cotton farmers in Africa to improve their living conditions.

FSC aims worldwide for sustainable forestry, according to strict social, ecological and economical criteria. By choosing for FSC-certified wood and paper products, responsible and durable forestry management is aided.

The Better Cotton Initiative (BCI) is a non-profit, multistakeholder governance group that promotes better standards in cotton farming. BCI contributes towards the UN's goals to achieve better global water sustainability and sustainable agriculture. BCI is currently the only notable sustainability standard in the cotton sector that allows farmers to grow genetically modified cotton.
